Carlos Hermosillo

Front End Developer

Monterrey, México 🇲🇽

I'm a Frontend Developer who loves design and make UI interfaces, see a clean and useful interface is like dopamine for me. Nowadays I'm a software engineering student but also I'm an autodidact student at Platzi. In my free time I usually study web development because I want to become an specialist in this area.

💼 Personal Projects

Gif Expert App
This website application was created with React. We used the famous API by Giphy to search the GIFs that we want.
(2021)

Technologies used:

HTML | CSS | Javascript | React | Github Pages

EcShop
It was an e-commerce website created with React. We used Routes, useState, createContext, useContext, useEffect to create the UI and make an amazing Shopping Cart.
(2022)

Technologies used:

HTML | Sass | Javascript | React | Webpack | Babel

Github Actions | Firebase

PlatziConf Merch
A complex app where I was able to put in practice all the React knowledge that I have.
(2022)

Technologies used:

HTML | CSS | Javascript | React | Webpack | Babel

Github Actions | Firebase | Paypal API
